

Family Light

Our one-year-old son, Josiah, woke up on Monday morning a couple of weeks ago with a slight rash, which is nothing new as he has several allergies. We gave him some Benadryl, loaded the car and headed down the road. We stopped for lunch a short time later and noticed that the rash had spread a little bit. Still no big deal. As we were preparing to leave Burger King, Josiah fell out of a booth, right onto his forehead. An immediate knot develops. We ice it, load him back in the car and proceed home. About an hour later we stop at a rest area and look back at Josiah. He looked like he lost a twelve round boxing match! His allergic reaction had spread to his face in the form of whelps. Couple that with the knot on his forehead and it was not a pretty picture. We gave him some more Benadryl, loaded him back in the car and headed back home. We thank the Lord that the rash and the knot eventually went away.

Ministry Light

At a recent church visit, God showed me what a great God He is and what an ignorant man that I am. After sharing our burden and video in the Sunday morning service at this particular church our interaction with the people came only in personal fellowship. I began to wonder what impact we would have on this church. I thank God that He chose to show me.

First a young boy came up to me and shared with me that, after hearing our presentation, he wanted to become a missionary. On Wednesday evening, this young man was giving me a hug and thanking me for influencing his life. WOW!!!

On the last night, one of the men came up to Erika and me and stated that God had really touched his family's life through our family. I am not sure if it was something we said or something we did to impact this family, but God used us somehow.

It is an awesome thing to be used of God!
